Lexington, Tenn., June 5, 1901.

This is to certify that about March last I suffered intensely with my back and kidneys. Just prior to this I had undergone treatment for bladder trouble and was relieved, except the treatment was followed by the above trouble. It was recommended that I try "Texas Wonder, Hall's Great Discovery." I took one dose on retiring at night, and to my agreeable astonishment, I found myself relieved. One dose did the work. There is no hush about this. It is wonderful.

Respectfully,

C. R. Scott, Proprietor Scott House, formerly county chief clerk, postmaster, etc.

A TEXAS WONDER.

The reason that Easter Sunday is so late this year is because Easter is the Sunday following the first full moon after the vernal equinox, which this year fell on March 21 shortly after 2 a. m. The equinox following a day later than last year missed the full moon of the March 20 by about two hours, thus throwing Easter back until the Sunday following the full moon of April 19, or 20 days later than last year, Easter this year falling on April 23.
